An Adoption Life Book is a record of an adopted child's early life that uses words, photos, artwork, and memorabilia to capture forever an important part of their life. The book includes information about the child's birth parents and their cultural heritage. It starts with the child's birth, and continues on to include when the adopted child first joined their family.  
  
An Adoption Life Book is more than a life story. It is a unique opportunity for parents to honor every minute of their children's lives. It is the single most meaningful piece of "history" that any new parent can complete. As time passes, it will become an important part of early childhood memory.

**Attendees:** Adult and Kid  
**Notes:** Sing and Sign is now bringing music classes to PortraitBug! Our classes are a combination of music and sign language. Through song, your child will learn basic baby signs to better help you communicate in addition to being loads of fun. Just as "head, shoulder, knees, and toes" combines movement with song, the hand gestures involved with baby sign language will make the songs you sing twice as fun. Each class lasts 45 minutes and includes music, ASL (American Sign Language), plus class related activities and props to enhance cognitive learning.
